## State Standards

## Massachusetts

- ELA:
- W.11-12.1: Write arguments (e.g., essays, letters to the editor, advocacy speeches) to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence.
- W.11-12.2: Write informative/explanatory texts (e.g., essays, oral reports, biographical feature articles) to examine and convey complex ideas, concepts, and information clearly and accurately through the effective selection, organization, and analysis of content.
- W.11-12.3: Write narratives to develop experiences or events using effective literary techniques, well-chosen details, and well-structured sequences.
- W.11-12.6: Use technology, including current web-based communication platforms, to produce, publish, and update individual or shared writing products in response to ongoing feedback, including new arguments or information.
- W.11-12.8: When conducting research, gather relevant information from multiple authoritative
  print and digital sources, using advanced searches effectively; assess the strengths and limitations of
  each source in terms of the task, purpose, and audience; integrate information into the text
  selectively to maintain the flow of ideas, avoiding plagiarism and overreliance on any one source
  and following a standard format for citation.
- W.11-12.9 Draw evidence form literary or informational texts to support written analysis, interpretation, reflection, and research, applying one or more grades 11-12 standards for Reading Literature or Reading Informational Text as needed.
- SL.11-12.1: Initiate and participate effectively in a range of collaborative discussions (one-on-one, in groups, and teacher-led) with diverse partners on *grades 11-12 topics*, *texts*, *and issues*, building on others' ideas and expressing their own clearly and persuasively.
- SL.11-12.1.c:
  - Propel conversations by posing and responding to questions that probe reasoning and evidence; ensure a hearing for a full range of positions on a topic or issue; clarify, verify, or challenge ideas and conclusions; and promote divergent and creative perspectives.
- SL.11-12.2: Integrate multiple sources of information presented in diverse formats and media (e.g., visually, quantitatively, orally) in order to make informed decisions and solve problems, evaluating the credibility and accuracy of each source and noting any discrepancies among the data.
- STEM:
- HS.ETS.1.2: Break a complex real-world problem into smaller, more manageable problems that each can be solved using scientific and engineering principles.
- HS.ETS.1.6: Document and present solutions that include specifications, performance results, successes and remaining issues, and limitations
- 9-12.DTC.a.1: Use digital tools to design and develop a significant digital artifact (e.g., multipage website, online portfolio, simulation).

## California

- ELA:
- W.11-12.7: Conduct short as well as more sustained research projects to answer a question (including a self-generated question) or solve a problem; narrow or broaden the inquiry when appropriate; synthesize multiple sources on the subject, demonstrating understanding of the subject under investigation.

- W.11-12.8: Gather relevant information from multiple authoritative print and digital sources, using
  advanced searches effectively; assess the usefulness of each source in answering the research
  question; integrate information into the text selectively to maintain the flow of ideas, avoiding
  plagiarism and following a standard format for citation including footnotes and endnotes. CA
- WHST.11-12.8: Gather relevant information from multiple authoritative print and digital sources (primary and secondary), using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation. CA
- WHST.11-12.9: Draw evidence from informational texts to support analysis, reflection, and research.
- W.11-12.3: Write narratives to develop real or imagined experiences or events using effective technique, well-chosen details, and well-structured event sequences. a. Engage and orient the reader by setting out a problem, situation, or observation and its significance, establishing one or multiple point(s) of view, and introducing a narrator and/or characters; create a smooth progression of experiences or events. b. Use narrative techniques, such as dialogue, pacing, description, reflection, and multiple plot lines, to develop experiences, events, and/or characters. c. Use a variety of techniques to sequence events so that they build on one another to create a coherent whole and build toward a particular tone and outcome (e.g., a sense of mystery, suspense, growth, or resolution). d. Use precise words and phrases, telling details, and sensory language to convey a vivid picture of the experiences, events, setting, and/or characters. e. Provide a conclusion that follows from and reflects on what is experienced, observed, or resolved over the course of the narrative.
- W.11-12.1: Write arguments to support claims in an analysis of substantive topics or texts, using valid reasoning and relevant and sufficient evidence. a. Introduce precise claim(s), distinguish the claim(s) from alternate or opposing claims, and create an organization that establishes clear relationships among claim(s), counterclaims, reasons, and evidence. b. Develop claim(s) and counterclaims fairly, supplying evidence for each while pointing out the strengths and limitations of both in a manner that anticipates the audience's knowledge level and concerns. c. Use words, phrases, and clauses to link the major sections of the text, create cohesion, and clarify the relationships between claim(s) and reasons, between reasons and evidence, and between claim(s) and counterclaims. d. Establish and maintain a formal style and objective tone while attending to the norms and conventions of the disciplines in which they are writing. e. Provide a concluding statement or section that follows from and supports the argument presented.
- Adv.MA:Pr6: Curate, design, and promote the presentation of media artworks for intentional impacts, through a variety of contexts, such as markets and venues.
- Adv.VA:Cr1.2: Choose from a range of materials and methods of traditional and contemporary
  artistic practices, following or breaking established conventions, to plan the making of multiple
  works of art and design based on a theme, idea, or concept.

## • STEM:

• HS-ETS1-2: Design a solution to a complex real-world problem by breaking it down into smaller, more manageable problems that can be solved through engineering.
